

## **Corleone: Beyond the Mafia**

Thousands of people in the world have heard about Corleone: mainly because of the mafia, and also because of the Godfather movies. But only a few of them have seen it with their own eyes. And who has been fascinated by it.

The name "Corleone" is not simply that of a Godfather. Discover this picturesque village in the middle of the Sicilian countryside, enjoy the warm hospitality of the people and their effort to struggle against the Mafia.

The guided tour, led by an activist of a local non-profit organisation, will retrace the history of Corleone from the late nineteenth century. It runs through the city centre and includes the "Laboratory of Legality". Here you can admire the works of the Sicilian painter Gaetano Porcasi, which focus on the history of the Mafia and the Anti-mafia movement.

### Highlights:

- Explore the alleys of Corleone with a local activist
- Learn about the history of the Mafia in Corleone through the painting of Gaetano Porcasi
